

A DAY IN THE LIFE OF AN ARCHITECT

Tulsiramji Gaiwad Patil College of Architecture held a one day workshop titled 'A Day in the Life of an Architect' to address the questions of students opting for the course, about the five years of B.Arch, the admission process and the profession. The Chief Guest, Prof.KishorRewatkar spoke about the importance and role of an architect and also briefed about the job prospects. The students were able to experience the way an architect works by participating in a group activity followed by a site visit. They also visited the office of Ar. Ashok Mokha who advised them to enter into the profession only if they were interested and passionate about it. The attendees appreciated the TGPCA campus and faculty and agreed that they returned with better insight into the role of an architect.
