### 1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process

The Institute is affiliated to Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur and the curriculum and syllabi prescribed by the university are strictly adhered to. Apart from this prescribed curriculum, the Institute has strategized ways and means to strengthen the teaching-learning process in the following ways:

- Advance planning of Academic activities and calendar in alignment with the academic calendar issued by the University.
- Framing of Time Table with provision for Value Added Programmes (VAP), seminars and library hours.
- Course allotment based on competency matrix, experience and performance in previous year.
- Objective driven teaching plan at the beginning of the semester
- Maintenance of course files by all faculty members which contains lesson plan, notes of lesson, question bank and result analysis
- New and innovative teaching techniques, with interactive lecture method to get the students actively involved in the teaching learning processes with learner centric techniques such as group discussion, site visits, case studies, projects, surveys, quiz etc.
- For keeping the students updated with modern day, the institution organizes contemporary video shows depicting the latest development. The students are allowed to discuss, deliberate and interact the new ideas amongst themselves and also with the faculty.
- Teacher Guardian Scheme - Each teaching faculty is given responsibility of mentoring 15 students on academic and personal issues, thereby strengthening the bond between teachers and the students, leading to a better learning atmosphere and to sustain their performance.
- Organization of guest lectures by professional Architects and under cost project site visits to gain practical knowledge.
- Periodical review by the design chair and the Principal of the portions covered by the faculty and also the student's attendance.
- Monitoring of course delivery and syllabus completion through formal and informal feedbacks.
- Systematic examination process, standard question papers, proper and prompt evaluation and interaction with the parents about the progress of the students
- Refresher courses, workshops, FDPs for skill up gradation of faculty.
- Provision of infrastructure facility
- Encouragement to students to do innovative thesis project work of national interest.
- Bridging Profession –Institution gap with suitable value added programmes.
- Adoption of “**outcome based approach**” for the effective delivery of the curriculum.

**SYLLABUS OF THE SUBJECT WITH OBJECTIVE**

**Design of Human Settlements**

**Objectives:** The study aims at introducing students to the development of planning thought from that of historic to present age. It also gives emphasis on stressing broad principles of settlement in such period. The study of this subject continues with emphasis on planning philosophies and the student to carry out the further studies in the specialized field of Urban Planning.

**Unit I:** Man's role in designing and developing the towns and cities from ancient times through Medieval, Renaissance and Industrial revolution to present day development.

**Unit II:** Town planning in India, Pre-historic, Vedic, Pre-British and British Planning in India, Planning after independence.

**Unit III:** Pioneers and their works, Planning concepts of Patrick Geddes, Ebenezer Howard, Abernethy, Le-corbusier, C. A. Parry, Clarence Stein, Doxiadis, Kevin Lynch, F.L. Wright, Lewis Mumford, Rob Krier and Victor Gruen.

**Unit IV:** Present concept of planning at various levels, Planning as a team work, Role of Architects/Planners in a team, Importance and methodologies of surveys in the planning process, Factors governing the location and growth of towns.

**Unit V:** Understanding the process of development plan making, general ideas of implementation of such plans and planning agencies, study of planning legislation and administration, town and regional planning acts., M.R.T.P Act., Development control rules, zoning, density, height, FSI Structures, Role of local and planning authorities.

**Unit VI:** Introduction to the problem of urban and rural housing in India, Analysis of demand and supply, General study of Planning consideration of housing and area development and housing infrastructure such as utilities and services.

Sessional works : Notes and Seminar of above topics, Critical appraisal of existing proposed housing schemes, planning exercise of residential community.

**Reference books :**

One of the major issues is Global warming due to many fold increase in demand for energy and resources. It is a vicious circle. More development demands more energy and more energy production results into more exploitation of natural resources, adversely affecting environment. Architects, Urban designers, Planners and Civil engineers are do not directly involved in energy production but certainly they can, design and create Built environment that will depend less on artificial energy or processed fuel to create comfortable, environment friendly living and working conditions.

Very useful presentation

Can we get any reading reference materials regarding the topic

It was an informative webinar.

Please conduct such more workshops and inform us. Thank you for the informative session.

If possible try to do one webinar on highrise, long span structure too.

Can you please send us a recorded video to us.

Very enriching session

looking further for workshops based on modern technologies for emergency fire exits

very useful and informative session.
